- Don't worry about having to attend alarm call outs anymore. Relax at evenings and weekends, safe in the knowledge that we will respond to any out of hours alarm call outs.
- Safeguard your premises and your employees. Our fully trained Response Officers will attend your premises in the event of an out of hours alarm call out.
- Always have a spare set of keys in safe hands. No more worries about gaining entry to your premises in the event of lost keys.

### How our keyholding and alarm response service can benefit you.

Alarm call outs rarely happen at a time that's convenient to the keyholder!

Why does it always seem to happen when you're out for the evening, enjoying a few drinks with friends or trying to get a good night's sleep before an important meeting the next day?

What happens in the holiday season? Who's going to be 'on call' while the keyholder is on holiday? Do you have 'cover' while the keyholder is away overnight on business?

- Safeguard your employees. Sending employees to respond to an alarm call out of hours to establish if there's a break-in, or a fire, is not safe or practical. In the event of an out of hours alarm call out, our fully trained Response Officers will attend your premises.
- Protect your premises and equipment. Should the alarm go off out of hours we can access your premises, assess why an alarm has been activated and take action immediately minimising disruption and helping protect valuable equipment.
- Don't worry about having 'keyholder' cover out of hours or during holidays. Relax safe in the knowledge that we will cover any out of hours alarm call outs.
